## [Why set up a Fund in Cyprus?](#)

The continuous efforts to upgrade its legislative and regulatory regime along with its strong network of financial and professional services providers and the stability that provides within a region faced with economic and political challenges, have positioned Cyprus as one of the emerging investment fund centers in EU.

Cyprus offers an EU compliant jurisdiction with corporate taxation, set-up and operations cost lower than other countries.

The legal system of Cyprus is rigorous and transparent, based on common law and its tax framework offers interesting tax planning opportunities.

As a member of the European Union, Cyprus is harmonized with the EU financial services regulations and offers a competitive access to Europe, Middle East and Africa.

## [The Alternative Investment Funds](#)

Alternative Investment Fund or AIF means any collective investment undertaking which collectively raises capital from a number of investors, with a view to investing it in accordance with a defined investment policy for the benefit of those investors and which has not been authorized as an Undertaking for Collective Investments in Transferable Securities (UCITS).

The Alternative Investment Funds Law of 2014 applied in July 2014 with aim to align the Cyprus legal and regulatory framework with European directives on asset management.

In July 2018 Cyprus introduced a new AIF regime to replace the Alternative Investment Funds Law of 2014. With this new AIF regime, Cyprus has upgraded its legislative framework in order to reflect the latest market demands. The new AIF regime, among others, introduces a new product called the Registered AIF and a new legal form - the Limited Liability Partnership with separate legal personality.

The new AIF Law aligns Cyprus legal and regulatory framework with the latest EU laws and directives on asset management. This enhances the market transparency and the protection of investors.

The AIF Law provides for the authorization and on-going operations of the AIFs.

The Cyprus Securities and Exchange Commission is the regulatory and supervisory authority of all AIFs authorized under the AIF Law.

## The Main characteristics of the Alternative Investment Funds

An Alternative Investment Fund can be divided into:

- The AIF Unlimited Number of persons (AIF)
- The AIF Limited Number of Persons (AIFLNP)
- The Registered AIFs (RAIFs)
